

Jeane L. Hull (CE 77)
Retired Executive Vice President
Peabody Energy

Jeane L. Hull is recently retired from her role as Executive Vice President and Chief Technical Officer for Peabody Energy where she led engineering services and supply chain management activities as well as technical, project, and operations support functions across Peabody's global platform.

The bulk of Jeane's career was devoted to leading mining operations or technical groups across the Powder River Basin, Utah and the Southwest. During her time at Peabody she held several roles including Group Vice President for Peabody's Powder River Basin and Southwest operations. In that role she was responsible for all operational aspects for Peabody's four Wyoming mines—North Antelope Rochelle, Caballo, Rawhide and School Creek; two New Mexico mines—El Segundo and Lee Ranch; and the Kayenta Mine in Arizona.

Before joining Peabody, Jeane was the Chief Operating Officer for Kennecott Utah Copper, a subsidiary of mining and metals giant Rio Tinto. In this role, she had operational responsibility for the mine, concentrator, smelter and refinery. Jeane held numerous management positions with Rio Tinto and affiliates, including 13 years with Kennecott Energy. It was during this time that Jeane became the General Manager of Spring Creek Coal becoming the first female manager of a coal mine in the US.

Prior to joining Rio Tinto, Jeane spent 12 years with Mobil Mining and Minerals and Mobil Chemical Company. She has additional engineering, environmental and regulatory affairs experience in the public and private sector.

A registered professional engineer, Jeane graduated from South Dakota School of Mines and Technology with a BS in Civil Engineering. She holds a MBA from Nova University in Florida. She is a Six Sigma Green Belt. Jeane serves as the Chairperson for University of Wyoming-School of Energy Resources Council and is on the Advisory Board for South Dakota School of Mines and Technology and Foundation Board. Jeane is on the board of Directors for Interfor--a leading global lumber supplier with operations across Canada and the US and Cloud Peak Energy—one of the largest US coal producers.
